The 32nd IEEE International Conference on Computer Communications

April 14-19, 2013 - Turin, Italy

The IEEE Conference on Computer Communications addresses key topics and issues related to computer communications, with emphasis on traffic management and protocols for both wired and wireless networks. Material is presented in a program of technical sessions, panel discussions and workshops. The first INFOCOM conference took place in 1982 and has since taken place at many locations around the world - China, Japan, Israel, Italy, Spain, Brazil, as well as most regions of the US.
